

C1  
Cond wherein the plurality of solid shapes include a plurality of irregular solid shapes.

---

C2 2 24 (Twice Amended) The planar light emitting device according to claim 1, wherein the second transparent synthetic resin layer is applied to the first synthetic semi-transparent resin layer to form a second diffusion layer therebetween.

---

C3 8 27 (Twice Amended) The planar light emitting device according to claim 23, wherein the light scattering material contained in the semi-transparent synthetic resin layer includes a first synthetic resin having a first refractive index and a second synthetic resin having a second refractive index.

---

See the attached Appendix for the changes made to effect the above claims.
